ROSTER OF ARMY STUDENTS

Enrolled from May 7, 1943 to April 27, 1946

in the

ARMY SPECIALIZED TRAINING PROGRAM
(ASTP)

MAY, 1946

INTRODUCTION

The Roster which follows shows alphabetically all men who were enrolled at V. M. I. in the Army Specialized Training Program (ASTP). The tables are arranged so as to show the men who were in the corps together. They could not be arranged by classes as the program was not set up that way.

Instead of using the customary terminology for an academic period, such as term, semester, quarter, or session, the periods were called cycles. A cycle ran for twelve weeks, at the end of which there was a one-week interval during which the army cadets were placed on furlough or transferred back to their units or elsewhere; new men came in and were oriented to begin the work of the following cycle; etc. This, in some cases, caused the period of enrollment to overlap the periods of the cycle at one or both ends. The work was continuous throughout the year and no holidays were observed during the war period.

The word "term" was used to denote the grade of the course and the first three terms were of an introductory, or basic, nature. The fourth term and those which followed were devoted to advanced, or specialized, instruction. In any cycle, therefore, there might be numerous terms. This terminology is used in the tables which follow, but toward the end of the program the word "cycle" was replaced in some cases by the word "term".

The army cadets were selected by the army and were assigned to the institution. At V. M. I. they performed substantially the same duties as the V. M. I. cadets, but were not subject to all of the V. M. I. regulations. For instance, they had week-end leave, were not required to go to church, etc.

Included in the enrollment were 106 former V. M. I. cadets. Of these, 91 were members of the Class of 1944, who had been inducted into the service at the end of their second, or junior, class, in May, 1943, and who were returned as AST cadets for a brief period prior to entering Officers Candidate School.

The catalogue of curricula and courses in the A. S. T. Program contains synopses of all courses and descriptions of the various subjects—it is entitled Army Service Forces Manual M 108, and was issued in March 1945.

Expenses of the training were paid by the War Department under three contracts and nine supplements thereto—the contracts covering the fiscal years and the supplements providing for variations in the enrollment and type of instruction. The faculty was amplified to take care of the increased work and the numbers fluctuated as the enrollment varied. The army contracts provided for the exact cost of the student to the institution and the payments were divided into five parts: instruction (which also included as a sub-head books, drawing instruments, etc.), subsistence, medical attention, use of the plant, and

maintenance and operation. During the course of the program there were 298,091 man-days and the service was furnished at cost. The exact cost as shown by the army audits and as paid by the War Department was as follows:

*Starting May 7, 1943.

†Ending April 27, 1946.

At the end of the Roster there is a table showing the distribution by course and term of the enrollment in each cycle and for the entire program. There is also a table showing similar information concerning the geographic distribution of the army students from which it will be noticed that they were drawn from every State in the union excepting three (Arizona, Idaho and Wyoming), and in addition from four foreign countries.

The following tables show the names, with pertinent data, of the 2,148 army students enrolled in the program.

ROSTER OF ARMY STUDENTS ENROLLED AT V. M. I.

May 7, 1943—April 27, 1946

The period of cadetship from matriculation to date ordered away is shown in weeks, TO THE NEAREST WHOLE NUMBER. (An additional week was added for four or more days.)

The academic program was divided into cycles (starting on Monday and ending on Saturday) of twelve weeks—a one-week furlough following each cycle. The program consisted of various courses, listed below, and the work in each course was divided into terms—a term's work being completed in each cycle.

NOTES CONCERNING ASTP (Army Specialized Training Program) CADETS

In the tables which follow the:

1ST FIGURE (after the 9th cycle, the first two figures) shows the ASTP cycle, or period, at V. M. I.

1 started May 10, 1943.	7 started November 6, 1944.
2 started August 9, 1943.	8 started February 5, 1945.
3 started November 8, 1943.	9 started May 7, 1945.

2ND FIGURE shows the ASTP course.

1 Civil Engineering - 1.	6 Curriculum B-60.
2 Electrical Engineering - 1.	7 Curriculum N-30 (Introductory)
3 Chemistry.	8 Curriculum B-65.
4 Curriculum E-1 (Engineering).	

3RD FIGURE shows the term, or scope of work done.

WHERE A LETTER FOLLOWS THE 3RD FIGURE:

A denotes a refresher course. Those deficient were subject to return to troops; others to be advanced to Term 4 in the next period.

E denotes a course devised to make the student's preparation eventually conform to requirements for admission to an authorized term. (This might have required two periods.) Those who failed were subject to return to troops; those in 4E who were proficient were eligible to be advanced in the following period to Term 4, 5 or 5E.

* denotes term was repeated.

† denotes graduation in army courses.

¶ denotes a former V. M. I. cadet.

§ denotes member of Enlisted Reserve Corps (ASTRP). These men were less than 18 years of age and came to V. M. I. from their homes. They first came to V. M. I. during the second period. Their expenses at V. M. I. were paid by the Army, but they received no Army pay; were restricted as to uniforms issued by the Army, etc. Thirteen who were less than 18 years of age at the end of the second period were transferred to another college. The foregoing refers to the term which ended February 5, 1944. After May 1, 1944, many members of the Enlisted Reserve Corps were admitted.
