Online Student Portal (shown for MCAT)

(GRE, GMAT, LSAT and DAT students also have an online student portal, not shown here)

The Princeton Review provides a state-of-the-art online student portal that integrates recorded lessons, hundreds of drills, and an in-depth analysis for every test question. This allows students to identify not only why the answers are credited, but also the likely mistakes the students made for incorrect answers.

Students receive personalized score reports that detail performance and pinpoint strengths and weaknesses. The scoring engine then provides recommendations on review lessons and drills based on each unique student's performance by subject and question type.

The online student portal also features the ultimate in convenience and will be available to students 24 hours a day, 7 days a week and accessible anywhere there is an internet connection.

Satisfaction Guarantee

If a student is not satisfied with The Princeton Review course for any reason, they can continue to work with us again free of charge. Students will have the option to extend their Online Portal Access for an additional 120 days (365 for MCAT) or join an existing Live Online retail course free of charge.
